“MAJLIS PELANCARAN CCTV PEMANTAUAN SAMPAH MUDAH ALIH – ‘WATCH YOU’”

MBSP mempunyai sebanyak 1,039 lokasi tepi jalan dan kawasan strata di sekitar Seberang Perai yang telah diletakkan dengan tong komunal untuk kegunaan penduduk sekitar melupuskan sisa pepejal domestik. Walau bagaimanapun, MBSP mendapati isu kebersihan di tapak tong komunal berada di tahap kurang memuaskan di mana sampah dibuang di luar tong, walaupun tong masih belum dipenuhi. Di samping itu, terdapat juga pembuangan sisa pepejal industri turut dilupuskan di tong komunal sedangkan sisa pepejal industri ini perlu dilupuskan sendiri oleh pihak industri dan perdagangan di Tapak Pelupusan Sampah Pulau Burung (TPSPB).

Memandangkan masalah ini semakin meruncing, MBSP telah mengesan lokasi 'hotspot' yang sering berlaku masalah ini di sekitar Seberang Perai. Tindakan tidak bertanggungjawab individu atau pihak industri membuang sampah di tempat yang tidak sepatutnya kini diperhatikan apabila MBSP membuat pemantauan menerusi Kamera Litar Tertutup atau *Closed Circuit Television* (CCTV) di lokasi ini. Ini merupakan salah satu inisiatif yang dilaksanakan oleh MBSP untuk memperbaiki pengurusan sampah di kawasan Seberang Perai melalui penggunaan sistem pemantauan CCTV yang pintar iaitu 'Watch You'. Sistem ini telah dirasmikan pada hari ini oleh YB Tuan H'ng Mooi Lye, EXCO Kerajaan Negeri Pulau Pinang serta turut dihadiri oleh YBhg. Dato' Azhar bin Hj Arshad, Datuk Bandar Seberang Perai, barisan Ahli-Ahli Majlis MBSP, ketua-ketua Jabatan serta pegawai kanan MBSP.

Kamera Litar Tertutup (CCTV) atau dikenali sebagai *Watch You* merupakan peralatan mudah alih yang menggunakan tenaga solar bagi memantau dan menangani pembuangan sisa pepejal domestik di luar tong sampah serta pembuangan sisa pepejal industri dan perdagangan. Maklumat yang diterima akan dihantar ke sistem data penguatkuasaan di Jabatan Perkhidmatan Perbandaran MBSP. Kamera Litar Tertutup (CCTV) ini dilengkapi dengan aplikasi kecerdasan buatan (AI) yang mampu membuat pengesanan nombor pendaftaran kenderaan serta pengesanan muka bagi pelaku yang tidak bertanggungjawab. Sehingga kini, sebanyak 55 kompaun telah dikeluarkan melalui kaedah ini dan tindakan yang boleh diambil ialah tindakan kompaun sebanyak RM 2,000.00 di bawah Undang-Undang Kecil Mengkompaun Kesalahan – Kesalahan (Majlis Bandaraya Seberang Perai) 2020.

“LAUNCHING CEREMONY OF MOBILE WASTE MONITORING CCTV – 'WATCH YOU' ”

MBSP has a total of 1,039 roadside locations and strata areas around Seberang Perai that have been placed with communal bins for the residents to dispose of domestic solid waste. However, MBSP found that the cleanliness issue at the communal bin site is at a less than satisfactory level where garbage is thrown outside of the bin, even though the bin is not fully filled up. In addition, there is also industrial solid waste that has been disposed of in communal bins. By right, this industrial solid waste has to be disposed of by industrial and commercial parties at the Pulau Burung Landfill (TPSPB).

Since this problem is getting worse, MBSP has located the 'hotspot' location where this problem often occurs around Seberang Perai. Irresponsible actions of individuals or industries throwing garbage where they shouldn't be will be noticed when MBSP monitors through Closed Circuit Television (CCTV) at this location. This is one of the initiatives implemented by MBSP to improve waste management in the Seberang Perai area through the use of a smart CCTV monitoring system called 'Watch You'. This system was inaugurated today by YB Tuan H'ng Mooi Lye, EXCO of the Penang State Government and also attended by YBhg. Dato' Azhar bin Hj Arshad, mayor of Seberang Perai, MBSP council members, heads of departments and senior MBSP officers.

Closed Circuit Camera (CCTV) or known as 'Watch You' is a mobile device that uses solar energy to monitor and deal with the disposal of domestic solid waste outside the bin as well as the disposal of industrial and commercial solid waste. The information received will be sent to the enforcement data system at the MBSP Municipal Services Department. This Closed Circuit Camera (CCTV) is equipped with an artificial intelligence (AI) application capable of recognizing vehicle registration numbers as well as facial recognition for irresponsible perpetrators. To date, a total of 55 compounds have been issued through this method and the action that can be taken is a compound action of RM 2,000.00 under the Compounding Offences By-law (Seberang Perai City Council) 2020.
