

PENANG BAY

INTERNATIONAL IDEAS COMPETITION

The Penang Bay International Ideas Competition aims to bring life back into Penang's historical and natural water-orientated assets, and enable people and capital to invest in a new city form. One where culture, nature, businesses and technology are organised symbiotically.

As part of its strategy to catalyse recovery and uplift the economy, the Penang State Government is asking innovators to help rethink the future and apply this to reimagine the waterfronts of the island and mainland in a manner that builds social, economic and environmental resilience.

40 entrants will be selected for online publication and the Juries' consideration.
